

Affordable and Secure Point-of-Sale (POS) Solutions for Your Business

Obtain Incredible Value at a Cost-Efficient Price with a POS System that Meets *All* Your Business Needs!

Capital Bankcard® presents a collection of award-winning POS systems that can streamline your retail, table- and quick-service restaurant operations with a seamless payment processing application that is built directly within the business management software.

These affordable, easy-to-use solutions provide extra security by integrating our secure card reader equipped with unsurpassed encryption technology for maximum card data security - beyond PCI DSS.

THE BENEFITS OF OUR POS SYSTEMS:

- Comprehensive POS solution for payment processing and business management
- Full range of computerized features with the functionality of more expensive systems but at a cost-effective price
- Secure card data protection that will abolish breach vulnerabilities
- Back-office solution with detailed reporting of performance statistics and other operational features
- An ever-evolving solution that is updated based on the actual needs and user experiences of retail and restaurant businesses
- Fast, simple, and accurate check-out/order entry

Concerned about your ability
to implement these systems?
NO NEED TO WORRY!

Cash Register *express*

Point of Sale Solution for Retail

Cash Register Express is the latest advancement in computerized cash register technology. This POS system is designed to help retail businesses decrease check-out times, track inventory and consumer preferences, produce detailed reports, diminish employee theft, and operate a more efficient back office. Cash Register Express is easy to use, yet offers a wide variety of useful tools, robust features, and comprehensive reports to boost any merchant's bottom line by increasing efficiency and accuracy while reducing inventory loss.

Includes: HP RP3000, 17" Non-Touch Screen, Capital Bankcard encrypted Magstripe Reader, Epson Thermal Receipt Printer with Cable, Cash Register Express Software, Employee Login Cards, HP Cash Drawer, HP USB Barcode Scanner & Standard Keyboard with Mouse, and 1 Hour of Virtual Training

Add-On for Retail POS

Pole Display: Customer-facing LED display to show items and totals

Touch Screen: Touch screen to replace standard monitor in retail package

2nd Station (Less than 1hr Training): Complete POS system for additional lanes

Restaurant Pro *express*

Point of Sale Solutions for Quick and Table Service Restaurants

Restaurant Pro Express is a complete point-of-sale and management solution designed for independent or chain fast-food and quick-service restaurants. This software package enhances the speed and accuracy of the order-taking process and provides integrated tools to manage ingredients, delivery and drive-thru orders, employee time tracking and labor scheduling, gift cards, customer loyalty, and more. The built-in reporting is completely flexible and generates the key figures needed to make smarter business decisions.

Includes: PosiFlex POS System, HP USB Mini Magstripe Reader, Epson Thermal Receipt Printer with Cable, Restaurant Pro Express Software, Employee Login Cards, HP USB Standard Keyboard with Mouse, and 2 Hours of Virtual Training

Designed for Restaurant Environments

Add-On for Restaurant POS
